

Postgraduate Certificate Enhancing Professional Practice: Working with Offenders

This is a professional development programme for practitioners working with offenders – including those in Probation, Prison Service and Youth Justice.

About the course

The programme aims to up skill practitioners through postgraduate study, enabling career advancement, achievement of high levels of performance and enhance ethical decision making in relation to the priority areas identified by West Mercia Probation Trust including:

- Assessment of individual's mental health and well being
- Promoting social justice and social inclusion
- Safeguarding individuals at risk of harm in the context of domestic violence.

In a changing and uncertain world these will remain key social issues in the 21st century. The programme will focus on the range of multi-dimensional skills and knowledge needed to work with offenders in an interdisciplinary framework. This course is seeking to recruit experienced and qualified practitioners who work in or manage services for offenders. The programme is committed to attracting a diverse workforce. Workers from a variety of allied professions who are keen to develop an inter-professional dialogue, are welcome.

Entry requirements

1. A good honours degree plus at least one year's professional experience in working with offenders for example in Probation, Prison Service, Social work or Youth Justice.

or:

2. At least three years experience in working with Offenders in a related field, a relevant professional qualification and evidence of ongoing professional development.

All potential candidates will be invited to attend for interview selection. Decisions regarding overseas candidates who cannot attend interview will be made on the basis of application and references.

Course structure

The programme commencing February 2013 will be studied through intensive block periods normally over two weekends per semester, one module per semester for three semesters. The teaching periods will be supported through electronic communication and the personal academic tutoring system. The three inter-disciplinary modules studied are:

- The Psychology of Mental Health
- Safeguarding Adults, Children and Young People in the Context of Domestic Violence
- Managing Diversity

Each module may be studied as a discreet entity or as part of the PG Certificate.

INVESTORS IN PEOPLE

University
of Worcester

Study at Worcester

Going to university is an important investment in your future. It is crucial that you choose the course and the university which is right for you. Over recent years, the number of people applying to study at Worcester has increased at a very much faster rate than at any other university in Britain. Worcester has become so popular because we have:

- Highly relevant, professional courses
- Excellent, inspiring teaching
- A truly friendly, inclusive approach
- An outstanding record of graduate employment

Worcester is a great place to live - there's a huge choice of things to do and places to visit. Worcester offers the best of both worlds: a small town feel with the sophistication of the city.

Institute of Health & Society

A real-world approach to health care

We share our passion for discovery to inspire and nurture the professionals of the future

- We are able to offer flexible courses with a range of modules and placements designed to help you discover your individual talents
With a professional, and often vocational, approach, the Institute of Health and Society's portfolio of courses offers a real world approach to the health and social care arena
- We are renowned for our ability to prepare students for work in a wide range of occupations across health, psychology, social care or the community sectors
- You will be taught by experienced specialists who are actively engaged in both research and evidence based, professional practice

The institute has excellent facilities to support the development of academic knowledge alongside relevant professional skills acquisitions including:

- Simulation suites equipped with contemporary technical equipment including programmable androids
- Dedicated computer labs and various monitoring laboratories, including eye-tracking equipment, skills and clinic rooms
- Excellent sports facilities including two astroturf pitches, The Worcester Arena - a new advanced indoor multi-purpose arena and active leisure centre; Riverside - drama, dance, sport and performance teaching facility

The Institute houses the Association for Dementia Studies: a national and international centre of excellence in training, education and research in dementia studies. The McClelland Centre is based at the University of Worcester's City Campus and has facilities for exercise, health and therapy. The facilities include private consultation rooms, a multi-bed clinic, and an exercise suite
